Feb 2024 – May 2024
- Developed multiple coding projects.
- Assisted in debugging errors that arose .

Princeps Credit System Limited – Front-end *Developer Intern*
July 2025
- Designed and implemented a reusable User Interface, enabling easy and scalable user interaction across multiple micro-services and applications.

TECHNICAL SKILLS

React | Git | MySql | PHP | Javascript | NodeJS | Typescript |Tailwind | HTML5 | CSS | CorelDraw | Canva

PROJECT EXPERIENCE

Fraud Detection System for my Institution   Feb 2024 – July 2024

- Developed a university Fraud detection system for my final year project to help the school cafeteria notify fake transactions.
- The App was made accessible to students through a website.

Lecturer Timetable Reminder   Feb 2024 – May 2024

- Collaborated on developing an application aimed at reminding lecturers and students of upcoming course schedules.
- Utilized React Native for the frontend. Used firebase for authentication, firestore to store user data and GCP cron jobs to reset the modified timetables at the start of each week.
- Developed a system to send local notifications reminding students and lecturers about upcoming course schedules and utilized remote notifications to inform students when a lecturer cancels a class.
